Response: DHEC will add the omitted counties.

2. Page 8 of 37 C. Funded Related Grant Requirements, Item 1. Relating to Reimbursable direct personnel costs not exceeding more than 65% of the requested budget. Also, administration cost cannot exceed more than 10% of the total budget

Question: For example, if an administrator or manager works 30% of their work time on the grant's direct program activities – is that considered part of the direct personnel costs (65%) or administrative cost (10%)?

Response: That would be administrative costs as administrators and managers provide oversight of the grant. Educators are an example of direct costs.
